SALON OWNERS

Samantha Cox Salon Owner & Senior Therapist

Samantha's journey in beauty began in 1997 when she earned her BTEC National Diploma in Beauty Therapy. After gaining experience working at various beauty establishments, she decided to pursue her dream of owning her own salon. On December 18th, 1999, at just 22 years old, Samantha opened Aspects of Beauty, working solo from the start. Over the years, the salon has flourished and grown, a testament to Samantha's passion and dedication. Since childhood, she knew that being a beauty therapist was her calling, and today she still loves every aspect of her work. While Samantha performs all the treatments offered at the salon, she specialises in electrolysis and threading.

Nicola Harris Salon Owner and Aesthetics Therapist

After years of experience in the childcare sector and raising her two boys, Nicola decided it was time for a career change. Having known Sam since their teenage years and as a loyal client of the salon, Nicola's interest in the beauty industry grew through many conversations with her. Confident that beauty was her true calling, Nicola enrolled in college and earned her Level 2 and 3 qualifications in Beauty Therapy. She initially ran her own beauty room from home for several years, but after Sam invited her to join the Aspects of Beauty team, Nicola found even greater fulfillment in her work. With a deep passion for skincare, Nicola has completed advanced facial courses, earned her Level 5 in Aesthetic Practice, and is currently working towards the prestigious Level 7, which she expects to complete by May 2025. Nicola is dedicated to providing tailored treatments that address a variety of skin concerns, including rosacea, acne, pigmentation, scarring, and signs of ageing. Her goal is to help clients feel more confident and comfortable by offering personalised solutions that make a meaningful difference in their skin.

Callus Peel Pedicure

£45 / Add Gel £57

Calluses usually appear from the daily strains we put on our feet. This can mean any number of things including dry skin, large amounts of walking, the types of shoes we wear, etc. Basically, calluses are bound to happen to us at least once in our lives! This however doesn't need to be a problem since callus treatments are so quick, easy, and even painless! We find that the best and most efficient treatment is the callus peel. So what is it exactly? A callus peel is a revitalising foot treatment for people whose feet need that little bit of extra TLC. It removes hard, callused skin and adds moisture, so your feet will be ready to hit the town, or just be barefoot round the house. Whatever suits your fancy!
